PROFESSIONAL SUMMARY

Frontend Developer & Flutter Mobile App Developer with 1.9 years of production experience building and shipping React.js web apps and Flutter mobile apps for live EdTech clients. Promoted from Intern to Frontend Developer. Published 3 apps on Google Play Store with 50+ active users. Owned end-to-end frontend — pixel-perfect UI, REST API integration, Redux & GetX state management, and client demos. Actively seeking Frontend Engineer / Flutter Developer roles in Chennai or Remote.

TECHNICAL SKILLS

Frontend: React.js · Redux · JavaScript (ES6+) · HTML5 · CSS3 · Tailwind CSS · Bootstrap · Framer Motion

Mobile: Flutter · Dart · GetX · Provider · Google Play Store · Firebase

Backend / DB: Node.js · Express.js · MongoDB · Firebase Firestore · REST API · JWT Auth

Languages: JavaScript (ES6+) · Dart · Core Java

Tools: Git · GitHub · Figma · Postman · VS Code · Agile / Scrum

WORK EXPERIENCE

Frontend Developer & Mobile App Developer

Dataspark AI Solutions • Full-time • Dec 2024 – Present • 15 Days Notice

- Delivered 3+ dual-platform products (React.js web + Flutter mobile + Node.js backend) for live EdTech clients — owned complete frontend, REST API integration, and backend coordination.
- Built IELTSGenAI as both Flutter mobile (Play Store) and React.js web app — implemented JWT authentication, Redux state management, and REST API integration end-to-end.
- Developed ESL English Learning App in Flutter with audio lessons and 5-level curriculum; reached 50+ active users on Google Play Store within launch period.
- Built NEET/JEE Learning Platform — Flutter app (Play Store) + React.js web portal — with practice tests, progress tracking, and performance analytics.
- Implemented scalable state management using Redux (React.js) and GetX / Provider (Flutter) across all products.
- Built role-based admin dashboards with React.js + Tailwind CSS and RBAC access control for 3+ client accounts.
- Led client demos, requirement-gathering, and sprint planning independently; delivered all 3 products on schedule.

Frontend Developer Intern

Dataspark AI Solutions • Full-time • Sep 2024 – Dec 2024

- Built responsive React.js UI components from Figma designs and integrated REST APIs in live client projects from day one.
- Gained production experience in component architecture, API integration, and cross-browser testing within first month.
- Promoted Intern → Frontend Developer; took on full project ownership for a live client product.

KEY PROJECTS

IELTSGenAI — Web & Mobile

Flutter · React.js · Redux · Node.js · JWT Auth · REST API

- Full-stack EdTech product — React.js web app + Flutter mobile app for AI-powered IELTS exam prep.
- Handled JWT auth, Redux state management, content delivery, and user progress tracking across both platforms.

ESL English Learning App

Flutter · Dart · Firebase Firestore · Firebase Auth · REST API

- Flutter mobile app with audio lessons, interactive exercises, and 5-level curriculum — 50+ active Play Store users.
- Integrated Firebase Firestore for real-time content management and Firebase Auth for secure user login.

NEET / JEE Learning Platform — Web & Mobile

Flutter · React.js · Redux · Node.js · MongoDB · REST API

- Full-stack product — Flutter mobile app (Play Store) + React.js web portal for competitive exam preparation.
- Features: subject-wise practice tests, real-time progress tracking, performance analytics, and Redux state management.

AI-Powered Admin Panel — Student Management System

React.js · Tailwind CSS · Node.js · MongoDB · REST API

- Comprehensive admin dashboard for managing IELTS/PTE students with AI insights for performance monitoring.
- Designed and developed full admin panel UI from scratch with RBAC access control for 3+ client accounts.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Applications (BCA) — 2019–2022

SFR College for Women, Tamil Nadu

- Full Stack Development — Infycle Technologies
- Complete Java Course — Besant Technologies
- Published 3 mobile apps independently on Google Play Store — all live with 50+ active users
- Promoted: Intern → Frontend Developer | Took on independent project ownership
